Instrument record methods

This constructed document contains fictional references for a citation audit. It is not a research submission.

The alpha calibration protocol is recorded in (Vale, 2024b).

The beta calibration protocol has a separate record (Vale, 2024).

An explanatory source appears only in the attached note[1].

Recorded items → Organized catalogue → Comparison

Figure 1 Overview of the record process, based on (Imani, 2021).

The process is summarized in Figure 1.
